\*HOW TO USE

\*WHAT IS INCLUDED

\*INDIVIDUAL PACKED

Registration No.  
FDA PH-0469840

DOH R.I.T.M VALIDATED

## Specimen type

- BIOCREDIT COVID-19 Ag Test : Nasopharyngeal SWAB

Read result  
within  
5 ~8 min

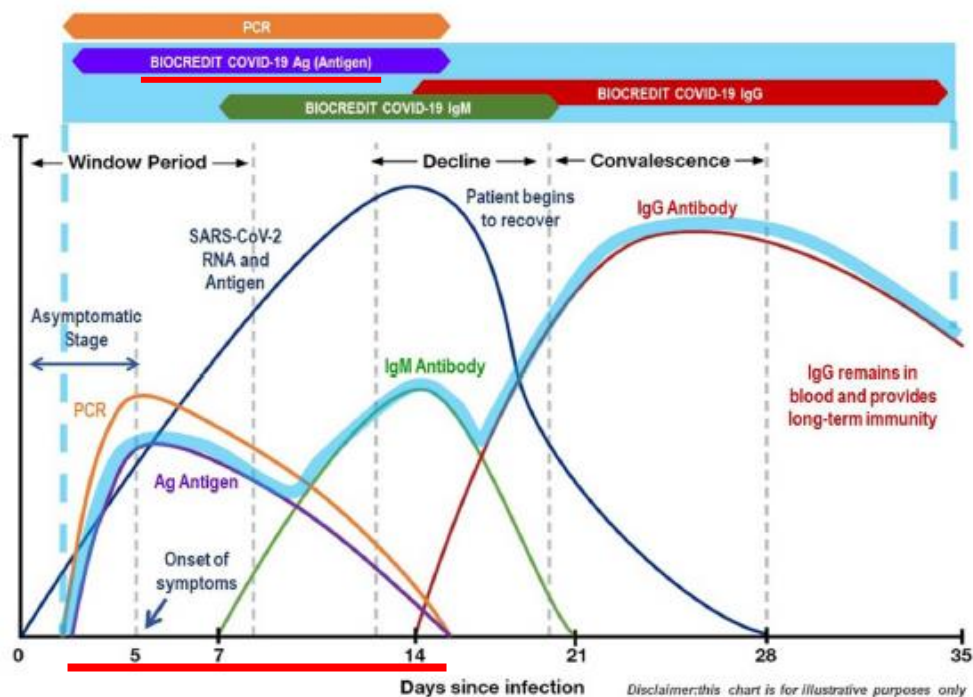

## Performance Characteristics

Europe		PCR (after symptoms occur)		Sensitivity	Specificity
		Positive	Negative		
BIOCREDIT COVID-19 Ag	Positive	24	0	96.0%	100.0%
	Negative	1	25		
Total		25	25		

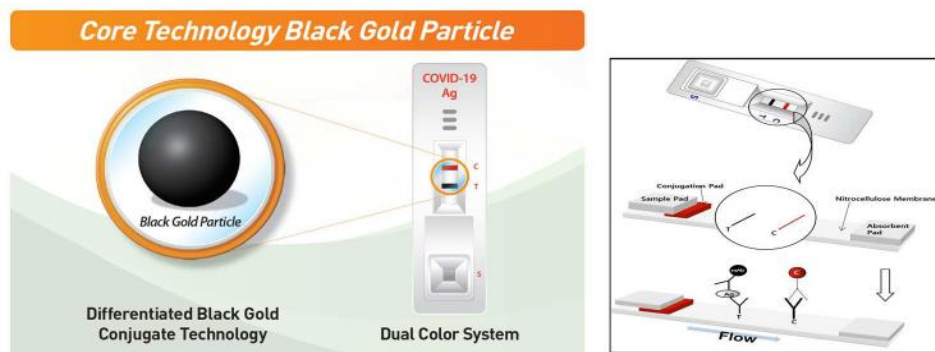

South America		PCR (after symptoms occur)		Sensitivity	Specificity
		Positive	Negative		
BIOCREDIT COVID-19 Ag	Positive	10	0	90.9%	100.0%
	Negative	1	109		
Total		11	109		

Total		PCR (after symptoms occur)		Sensitivity	Specificity
		Positive	Negative		
BIOCREDIT COVID-19 Ag	Positive	34	0	94.4%	100.0%
	Negative	2	134		
Total		36	134		

## Cover acute to convalescent phase of SARS-CoV-2 infection with BIOCREREDIT COVID-19 AG/AB Test

## BLACK GOLD PARTICLE – BEST QUALITY IN THE WORLD

### Strong Point

- High Sensitivity (More than 4-32times – Best Quality in the world)
- Easy to inspect using dual color lines (Control : Red, Test : Black)
- High repeatability and stability using gold conjugation
- High concentration manufacture system

## Recommended BIOCREDIT COVID-19 RAPID Test system

**Fever or Respiratory Symptoms**  
**[RAPID RESULT NEEDED]**

**COVID 19 AG TEST**

**[Priority Recommended]**

**COVID 19 AB TEST**

**[Recommended with AG]**

- AG TEST RESULT POSITIVE – NEED PCR TEST **[MOST INFECTIOUS Period]**
- AB TEST RESULT POSITIVE – NEED PCR TEST
- BOTH TEST RESULT POSITIVE – NEED PCR TEST **[RED ALERT]**

**PCR TEST**

**BOTH AG/ AB - RESULT CONFIRMED NEGATIVE [SAFE from ALL TITER]**

**NEGATIVE CASE**
